

Germany's latest Heavy Metal/Hard Rock prodigy The Night Eternal cloaks 70s and 80s guitar-driven sounds in their very own sinister guise.

Established in 2019, the five-piece quickly released their first EP and were signed with Van Records shortly thereafter, where they released their first single „Shadow's Servants" The highly anticipated first full-length „Moonlit Cross" (November 2021) did not only hit the marks with their die-hard underground fanbase, but was also ranked top by relevant Metal magazines such as Deaf Forever (#1 Soundcheck, #1 Newcomer), Metal Hammer (#2) and Rock Hard (#3). This also applies to their second album Fatale" (July 2023), which once again was ranked #1 in Deaf Forever and Rock Hard Magazine.

The Night Eternal impresses on record as well as live on stage with their dangerously energetic and forceful performance across all five musicians. Fans of Black Sabbath, In Solitude, Judas Priest, Tribulation or The Devil's Blood will buzz about the exceptional riffs and catchy melodies which conflate to a band that honors, but never imitates their 80s paragons.

The combo's ferocious new tracks are not only to blast away upcoming shows and festivals across Europe - beside touring with heavy rockers Lucifer, NWOBHM-legends Angel Witch and label mates Attic, they ´ll support mighty Blind Guardian on their Ireland/UK dates

The Night Eternal is already working on their 3rd full-length album.
